

Town of Holderness Excavation Permit

Town of Holderness Excavation Permit

20

Pursuant to RSA 231: 184, 185, 186 and RSA 236: 9, 10, 11, permission is requested to disturb the surface, shoulders, ditches, or slopes of: _____ Road in the Town of Holderness For the purpose of:

I/We hereby agree to conform to the following instructions and regulations in regards to the performance of the work proposed under this request. I/We also agree to any additional instructions issued by the Town of Holderness, its' Selectmen, Road Agent or his authorized representatives, during the process of the work. Selectmen review may be necessary for this project.

Before You Excavate, You must be authorized by DIG SAFE 1-888-344-7233 and/or other utility companies who do their own markings.

If possible, the pipe must be jacked, or cored. Small pipes are to be laid in a sleeve. If the pavement has to be disturbed, it must be cut prior to excavating. (Except emergencies) **Minimum depth of any pipe crossing or running parallel to, any roadway in the Town of Holderness shall be 4' (four feet). If you are to pass a culvert opening, inlet or outlet, you shall place your pipe or cable 4' (four feet) below the bottom of the existing culvert.** The pavement and base course material are to be hauled off and discarded properly. Excavation below sub-grade is to be saved and used as backfill. This is to prevent differential frost heaving. After the _____ the disturbed area must be backfilled, using excavation in layers, not exceeding 12 inches, up to sub-grade. A warning ribbon or tape must be placed 1 foot above the pipe. Each layer is to be thoroughly compacted. The base course shall be replaced as it was constructed. Do not exceed the depth of the existing base course. Crushed gravel is to be used if only one type of base course material is encountered. Each layer is to be thoroughly compacted to not less than 95% of AASHTO, Test T99 (Standard Proctor). State of New Hampshire D.O.T. specifications are to be followed as to material and construction standards.

The pavement must be replaced under the direction of the Road Agent listed below, or his designee. Please notify him at least 24 hours before doing any patchwork. The patch depth shall equal the depth of existing pavement. The edges of the pavement shall be trimmed as needed, and prepared with emulsion. (an asphalt bonding agent) Hot bituminous concrete (Hot Top- equal to material existing on roadway) shall be used for all patching material unless otherwise stated:

Stonewalls, erosion stone, or other unique areas, shall be replaced as original. Other earth areas will be loamed, fertilized, seeded and mulched. During the performance of this work, a representative from your company will be placed on call, providing the Town of Holderness, with an emergency contact number, to deal with issues, that need immediate review or repair, such as washout, erosion etc. Interruption of traffic must be kept to a minimum. Signs will be placed and maintained according to M.U.T.C.D. Standards. Properly trained and responsible flag persons shall be used as needed to control traffic. The area will be protected at night with reflective barricades, signs, cones, lights, etc.

I/We, the owners, or an authorized representative, agree to hold the Town of Holderness harmless, from any and all claims arising from the construction, maintenance and operation of said item(s), described in this permit, and its appurtenances, and agree to obtain permits from the Town of Holderness, before performing any future excavation for maintenance or renewal of said item(s) described in this permit, or other appurtenances thereto within the Highway/Roadway limits. I/We, the owners, or an authorized representative, will be held responsible, to repair the future settlement of the excavation described in this permit. It is understood and agreed, that this permit is for the right of construction, occupancy, operation, and future maintenance of the said item(s) described in this permit and is by sufferance only, with the Town of Holderness, reserving the right to require, in event of future alterations of the Highway/Roadway, or Highway/Roadway, right of way, certain alterations, relocations or complete removal of said item(s) described in this permit, and I/We the owners, or authorized representative, agree to perform such work promptly and at our own expense. Also, I/We, the owners, or an authorized representative, hereby agree to assume such additional costs as the Town of Holderness may incur, by reason of my/our failure to perform this work in a manner prescribed above, and am familiar with the penalty imposed by RSA 236:14.

As built plans will be provided to the Town of Holderness, identifying this project.

I/We, or an authorized representative, agree to the above: _____
